

Making the Most of my Conference Experience at Elevation 2.0

Prepare

Check the agenda and flag sessions you'd like to attend:

- What sessions will help you expand your skills and knowledge?
- What sessions are beneficial and relevant to your current work or upcoming projects?

Reflect

How can you apply what you've learned? Jot down one key takeaway (more are even better!) from each session you attend.

Plan Forward

Who didn't you get a chance to connect with? What sessions weren't you able to attend?

Connect

Based on the agenda and attendee list, who would you like to connect with?

Make sure to balance interactions between existing connections and new ones.

Take Action

Post-conference:

- Connect on LinkedIn and/or email
- Read materials that were suggested
- Watch session recordings that you weren't able to attend
- Continue the dialogue with other participants
- Share what you've learned with planning colleagues who weren't able to attend
